RE: Signal Golf International

FCC ID: P2T010407-0D

I have a few questions on this Application before further processing can continue.

- 1.) It is not clear that this device meets the definition of a Spread Spectrum system as defined in Part 2.1 of the Rules. Please explain how this device qualifies as an information bearing communication system and not simply an unlicensed radio location device.
- 2.) Please provide processing gain data.
- 3.) Please provide spurious band edge data for the restricted bands below 2390MHz and above 2483.5MHz.

William H. Graff
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
