**Exhibit of Confidentiality**

**To Whom It May Concern:**

**Arrista Technologies would like the following submitted exhibits treated as confidential material:**

- 1. Amplifier Schematic**
- 2. Block Diagram Amplifier**
- 3. Amplifier Parts Listing**

**The amplifier design, specifically, the gain control circuitry is of novel design and a US patent has been filed on it. As there is no other amplifier design that incorporates the gain control function the way the SA320 does, we believe that we have a competitive advantage over competing designs out in the market place.**
