Introduction

Thank you for purchasing this Airing Indoor Bluetooth Speaker product. This product has been manufactured with the highest standards of safety and quality. Traditionally, speakers were only enjoyed in the living room. Now, with this speaker, you surely will enjoy using this speaker!

Features

- Dedicated design for displaying on shelf.
- Solid wooden finishing.
- Bluetooth Class 2, transmitting / receiving working distance up to 10m.
- Support A2DP, AVRCP, Bluetooth wireless audio profile for use with iPhone, iPod touch, iPad and other wireless enabled devices.
- 15W x 2, 50W max power.
- Anti-interfering capability to increase stability and avoid signal jammed with wireless devices like Wi-Fi and mobiles.
- BQB approved and fully compatible with other Bluetooth enabled devices.

Bluetooth Wireless Communication Technology

Bluetooth is a standard of close range radio-communication technology that was drawn up by Ericsson, IBM, Intel, Nokia and Toshiba. With Bluetooth technology, we can achieve the same effect as using a cord. Bluetooth technology is used in printers, PDAs and other devices. The max transmission range of class II is 10 meters while the max transmission range of class I can reach up to 100 meters.

Parts Included in the Box

- A. Bluetooth Speaker (x1)
- B. AC adapter (x1)

- | | |
|---|-------------------------|
| 1 | Play/Pause |
| 2 | VOL - |
| 3 | VOL + |
| 4 | Bluetooth LED indicator |
| 5 | Power on/off button |
| 6 | DC in |
| 7 | 3.5mm line-in jack |

Operation Instruction

1. Switching on/off AIR01

- Switch power on/off button to on. Bluetooth LED indicators on.
- Switch power on/off button to off. Bluetooth LED indicators off.

2. Pairing AIR01 with Bluetooth devices

Please make sure your cell phone is Bluetooth-enabled. Specific pairing steps may vary with different cell phones. Please refer to the user manual of your cell phone for further information. The general pairing steps are as follows:

- Keep AIR01 and Bluetooth cell phone within 3 meter when pairing.
- Switch on AIR01, the indicator will turn blue. Press "Bluetooth" button to let it enter pairing mode (Bluetooth LED indicator blinking rapidly).
- Switch on your cell phone's Bluetooth function and search for Bluetooth devices. After the search is completed, select "AIR01" from the Bluetooth device list.
- According to indication, enter password or PIN No: "0000" and press "Yes" or "Confirm".
- After successful pairing, select "AIR01" from the Bluetooth device list. Press "OK" to connect. The Bluetooth LED indicator will flash in blue light every 2 seconds when connected successfully.

B. Pairing with a Bluetooth stereo transmitter

Different Bluetooth transmitters have different pairing ways. Please refer to the user manual of your Bluetooth transmitter for further information. The general pairing steps are as follows:

- Keep AIR01 and Bluetooth transmitter within 3 meter when pairing.
- Switch on AIR01, the indicator will turn blue. Press "Bluetooth" button to let it enter pairing mode (Bluetooth LED indicator blinking rapidly).
- The transmitter will search and connect with AIR01 automatically. After successful connecting, the Bluetooth LED indicator of AIR01 will flash in blue light every 2 seconds.

Remarks:

- If AIR01 is switched on and doesn't connect to any devices, please turn it on mode all the time and Bluetooth LED indicator is on.
- AIR01 will return to power on mode automatically after disconnecting from a Bluetooth device.

3. Music Playback

- Connecting with a A2DP cell phone or Bluetooth transmitter**
 - Connect your cell phone or Bluetooth transmitter with AIR01.
 - You can listen to your music from AIR01 now when playing it back.
 - Press VOL+ to turn up the volume, press VOL- to turn down the volume.
- Connecting with a non-Bluetooth music player**
 - Connect your music player with AIR01 by using a 3.5mm to 3.5mm audio cable.
 - You can listen to your music from AIR01 now when playing it back.

Remarks:

- If there is an incoming call while AIR01 is connected to your phone, the phone will ring and the call will be answered. After the call ended (sometimes it will pause after and the call, it depends on your cell phone).
- When AIR01 is connected to a non-Bluetooth audio device, the Bluetooth is off and the Bluetooth function will not be available. Please disconnect the 3.5mm audio cable first and reconnect AIR01 with your Bluetooth device.
- The "Play/Pause" button is unavailable when you connect AIR01 with a non-Bluetooth music player.

Maintenance

- Read the following recommendations before using AIR01. Following these you will be able to enjoy our product for many years.
- Keep it dry and don't take it to damp places so as to avoid the product's internal circuit being affected.
 - Keep the product away from direct sunlight or hot places, otherwise the battery or electronic components will be damaged.
 - Don't expose the battery or electronic components to high temperatures, or the product to cold areas. It may damage the internal circuit board.
 - Don't try to disassemble the product as it may get damaged.
 - Don't let it fall down onto the floor or other hard surfaces. The internal circuit might get damaged.
 - Don't use intensive chemical products or detergent to clean the product.
 - Don't scratch the surface with sharp things.

Specifications

Bluetooth Version	A2DP V2.1+EDR
Bluetooth Profile	A2DP, AVRCP
Frequency Response	80Hz-20KHz
Operating Distance	10 meters, class II
Power Supply	15V 2A Adapter
Working Temperature	-20°C~60°C (in the original packing box)
Storage Temperature	-20°C~60°C
Dimensions	110*70*130(D*W*H)mm
Weight	2.77 lbs.

Trouble Shooting / FAQ

- Problem:** AIR01 cannot be powered on.
- Solution:**
- Make sure that the DC cord is firmly connected to the unit and the power outlet is turned on.
 - Check the connection between your Bluetooth device and AIR01.
 - Press "Play/Pause" button for 4s to reset AIR01 or your Bluetooth device.
- Problem:** How far is the effective range between AIR01 and a Bluetooth device?
- Solution:** Class II speaker is 10 meters. But it varies under different environments.
- Problem:** What is A2DP?
- Solution:** A2DP means the Advanced Audio Distribution Profile. It's a Bluetooth profile that allows the wireless transfer of high-quality audio from an A2DP source to an A2DP receiver.
- Problem:** What is AVRCP?
- Solution:** AVRCP means the Audio/Video Remote Control Profile. It's a Bluetooth profile that allows the wireless control media playback on remote devices. It's typically used with A2DP devices for next/previous track selection and jump/play functions.

Trouble Shooting / FAQ

- Problem:** AIR01 has no sound.
- Solution:**
- Verify that the volume is not muted.
 - Verify that there is no other device connected to AIR01.
 - Check the connection between your Bluetooth device and AIR01.
 - Press "Play/Pause" button for 4s to reset AIR01 or your Bluetooth device.
- Problem:** How far is the effective range between AIR01 and a Bluetooth device?

FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and the receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
3. Consult the dealer or an experience radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
