

Dear Mr. Mike Kuo,

Regarding the accessment no. AN04T4075(FCC ID. : P3HKT-SR2000), we think that the following questions will come as AN04T4070.

So, we attached the revised confidential letter and report.

Question #1: Operational description is asked for confidentiality, however, it included the information provided in the user manual which can't be kept as confidential. So please make the proper correction.

Question #3: Based on the test report, EUT was tested with a speaker.

Please advise if the speaker was set at the maximum output mode during testing.

If you have any question or need more information, please feel free to contact us.

Thank you!

S. C. Hong / Project Engineer
