Dear Ms. Helen,

Thank you for your cooperation and kindness.  
Regarding the Assessment no. AN06T6095, we would like to inform you as follows,

Question #1: The user manual indicates: "This equipment has been tested and found to comply with Part 15 of the FCC Rules." But based upon FCC15.105, you need to specify "to comply with the limits for a Class A or Class B digital device..." Please update the user manual.  
---> Please refer to attached revised manual.

Question #2: The user manual (page 33) clearly indicates "Rotary Knob adjusts in 0.1 MHz increments..." but the test report indicates "88.1 MHz ~107.9 MHz (range into 200 KHz Step)". Please correct the discrepancy.  
---> Please refer to attached revised manual.

Question #3: Please provide external photos of the AC/DC Adapter.  
---> Please refer to attached photos.

If you have any question, please feel free to contact us.  
Thank you and have a great day!

Best Regards,

S. C. Hong / Project Engineer
