Product Name: EASyCAP Linux software version 1.2

FCC ID (if applicable): P4V-EASYCAP-1

Product Category: EAS Encoder/Decoder

Product Description: The EASyCAP Linux software version 1.2 running on the EASyCAP Encoder/Decoder receives CAP messages from multiple sources, validates them, and acquires the appropriate audio resources. If audio is not available, text-to-speech is used to generate the alert audio. CAP Messages are formatted for the internal message storage of the EASyCAP Encoder/Decoder and processed in a manner common to received EAS messages.

Installed Options: EASyCAP Encoder/Decoder firmware version 1.0

Vendor-Provided Products Tested with *EASyCAP Linux software version 1.2*:

Manufacturer	Product Name	Model No./Unique ID
Trilithic Inc.	EASyCAP Encoder/Decoder	EASyCAP Emergency Management System

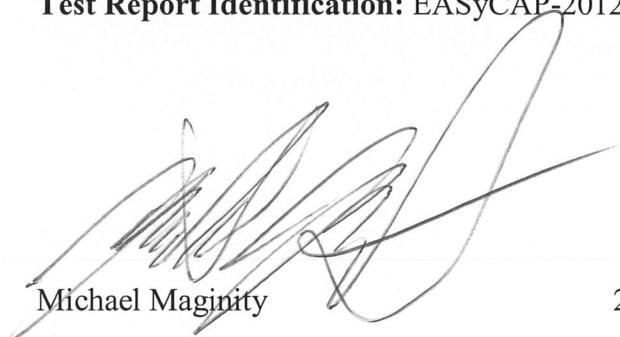

Additional Information (if necessary): Specifications, data sheets, and manuals for EASyCAP software and EASy Series Encoder/Decoders can be found on the Trilithic Web site at <http://www.trilithic.com>.

think ahead.
