Authorization and Evaluation Division

Industry Canada
Certification and Engineering Bureau
Reference FCC ID: **P4V-MCA111**
Reference IC ID: **7020A-MCA111**

Organization: Trillithic

This product will not be used as a Master or Access Point. It will only use the 15.247 frequencies of 2412-2462 MHz and 5745-5825 MHz. It is used exclusively in vehicles, so AC power line conducted emissions are not required.

This product has a Wifi module that was modularly approved by Redpine as FCC ID: XF6- RS9110N1103.

The only change to the Wifi Module is the addition of an external antenna.
