

**MODULAR APPROVAL LETTER**  
**FCC ID: P53-EMB1016**

<b>Modular Approval Requirement</b>	<b>Yes</b>	<b>No</b>
(i) The radio elements of the modular transmitter must have their own shielding. The physical crystal and tuning capacitors may be located external to the shielded radio elements.	YES The modular transmitter have its own RF shielding	
(ii) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided) to ensure that the module will comply with part 15 requirements under conditions of excessive data rates or over-modulation.	YES The modular accord with Part 15 requirements	
(iii) The modular transmitter must have its own power supply regulation.	YES The modular It has its own power supply regulation	
(iv) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c). The antenna must either be permanently attached or employ a "unique" antenna coupler (at all connections between the module and the antenna, including the cable). The "professional installation" provision of § 15.203 is not applicable to modules but can apply to limited modular approvals under paragraph (b) of this section.	YES The modular accord with the antenna requirements of Section 15.203 and 15.204(b)(c)	
(v) The modular transmitter must be tested in a stand-alone configuration	YES	
(vi) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.	YES The modular have one permanently affixed label	
(vii) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	YES The modular transmitter accord with any specific rule or operating requirements	
(viii) The modular transmitter must comply with any	YES	

applicable RF exposure requirements in its final configuration.	The modular transmitter accord RF exposure requirements	
---	---	--

The letter must be on the applicant's letterhead and signed by the grantee code contact.

**Signature:**

A handwritten signature in black ink that reads "Xu Wei". The signature is written in a cursive, slightly slanted style. The text is centered horizontally and is set against a light yellow rectangular background.
