Statement of Changes

Company name: Alien Technology
FCC ID: P65ALH9001
FCC ID: P65ATRM900F01
FCC Part 15 Certification

Gentlemen,

The ALH-90XX handheld reader currently contains two FCC grants. The first grant, P65ALH9001, incorporates three separate radios. The second grant, P65ATRM900F01 RFID reader, remains the same for this discussion.

The P65ALH9001 grant contains the WIFI, Bluetooth and a GSM data radio. The GSM data radio HC25 module manufactured by Cinterion has gone obsolete and was replaced by the PH8 modem. This class 2 permissive change is to incorporate the new Cinterion PH8 module into Alien Technology's ALH-90XX composite device.

Sincerely,

Greg Katterhagen
Sr. Development Engineer
