Description of Changes Made to Model ALR-9780 Reader
FCC Equipment ID P65ALR9780
Class II Permissive Change
5/13/2004

Alien Technology has made changes to its existing equipment for the above grant and performed required testing o these changes to assure compliance to FCC part 15.247 requirements. The following is a description of the changes made:

Changes Made: An antenna with 6 dBi gain manufactured by Alien Technology, model ALR-9610-BC, is being included as one of the antenna's that can be used with the Model ALR-9780 Reader under the above grant. It is requested that this antenna be included in the grant along with the other antennas certified for use with this radio.

Alien Technology requests that this Class II permissive change be approved at the earliest convenience.

Sincerely,

Robert Martin
Sr. Compliance Engineer
