Re: Permissive change request: P65ALR9900:

Gentlemen,

Alien Technology has made changes to its existing equipment to the above grant and has performed required testing (radiated and conducted) of these changes to assure compliance to FCC part 15.247 requirements. The following is a description of the changes made:

Changes Made: Added a second source power supply manufacture, XP Power , Model HUP45-30

It is requested that this power supply be included in the grant along with the original power supply manufacture for use with this reader. Alien Technology requests that this Class II permissive change be approved at the earliest convenience.

Sincerely,

A handwritten signature in black ink, appearing to read 'G. Katterhagen', written over a horizontal line.
