

Exhibit D: FCC ID Label

FCC ID: P6I-COPYCAM

The FCC Label is shown here in Photo 1. This is the final, actual product label that will be shipped on the product.

Photo 1

The location of the label is shown in these next two photos. As can be seen, the label is on the top of the product, near the antenna. The labels shown in these two pictures are not the final label pictured above – they are prototype labels, but the location is the same.
