7435 Oakland Mills Road

Columbia, MD 21046

Subject: Normal Frequencies Justification

Dear Sir/Madam,

The Radio with FCC ID: P6NTH-288U was designed to operate in the frequency bands 400~470MHz

To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Shenzhen HQT Science&Technology Co., Ltd is requesting that the FCC lists the frequencies 400~470MHz, under FCC Rule Part 90 on the FCC Grant.

Shenzhen HQT Science&Technology Co., Ltd Attests that the radio will not be marketed to USA users with the frequency band which is not allowed by the rule part 90. Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Also, equipment programming is the responsibility of Authorized Service Personnel, the radio complies with 47 CFR Part 90.203(e), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Sincerely Yours,
