7435 Oakland Mills Road,  
Columbia, Maryland 21046.

Attention: Authorization & Evaluation Division

Reference: P7QNP-7

The above referenced item complies with 47 CFR 22.919  
as follows:

The Electronic Serial Number (ESN) for each transceiver  
is unique.

The ESN host component is permanently attached to a  
main circuit board of the mobile transmitter and the  
integrity of the unit's operating software is not  
alterable. The ESN is isolated from fraudulent con-  
tact and tampering.

The host component does not contain other information;  
is not removable and its electrical connections are not  
accessible.

The ESN is factory-set and is not alterable, trans-  
ferable, removable or otherwise able to be manipulated.  
Cellular mobile equipment is designed such that any  
attempted to remove, tamper with, or change the ESN  
chip, its logic system or firmware originally programmed  
by the manufacturer will render the mobile transmitter  
inoperative.
