Dear Chris,

Thank you for your kind cooperation.

I would like to send some files to clear your kind comments. Please review those at your earliest convenience and then issue your certificate, if there is no deviation from you.

Best Regards,

Y. G. Gwon ( ) ( ) ( )

Subject: INKEL Corporation, FCC ID: P87JR10, Assessment NO.: AN08T8020, Notice#2

Dear YG Kwon,

I have reviewed the response to Notice #1 and have the following additional request for information before I complete the review:

The revised Users manual has RF Exposure statement that indicates the need for 20cm separation, but the test report contains an MPE calculation for 100cm separation. The installation guidance should indicate the separation at least as large as the MPE calculation. Please revise the manual to provide guidance on separation at least as large as the MPE calculation.

You can submit a revised MPE calculation and manual statements for the Donor and the Coverage antennas as separate calculations. The Grant can be conditioned to require different separation distances for the Donor and Coverage antennas.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
