Re: Request for dismissal for the product has FCC ID: P87JR10

Applicant: Inkel Co., Ltd.

To whom it may concern,

We, Inkel Co., Ltd., want this letter serves for our confirmation letter regarding above matter.

We got certificate from the TCB, Compliance Certification Services Inc on July 1<sup>st</sup>, but our US customer, Juni America, requires a higher Downlink power unit, so we would like to submit new application documents with new test report for demonstrating FCC compliance at the higher Downlink power values, so please dismissal this product on your data base. Also we would like to declare following items.

1. No units of the low power of P87JR10 were sold in US.
2. No hardware changes are required to obtain the higher Downlink power values, only minor firmware changes.

If you need more any information and/or documents, could you please inform me that in detailed.

Best regards,

A handwritten signature in black ink, appearing to read "Ohvom, Kwon".
