RE: Dismissal Request of FCC ID P9C-A001OP

Dear FCC,

We, Broadcast Solutions Electronics (Pty) Ltd are urgent request for dismissal regarding the following application which was issued by TCB MiCOM Labs Inc. on date 05/19/2020.

The FCC ID: P9C-A001OP and TC numbers are TC402217, TC807334, TC223272, TC462240, TC508307, TC582775.

The reason for the dismissal request of the above-mentioned application is that we decided not to take the product to market, and we are aware of MiCOM Labs Inc uploaded an incorrect GC application of Guangdong Oppo Mobile Telecommunications (R9C) to our database. So we request to dismissal this FCC ID.

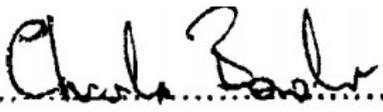

We, Broadcast Solutions Electronics (Pty) Ltd confirm that the product under FCC ID: P9C-A001OP has never been marketed or sold anywhere in the US or any country in the world as the device does not exist under this FCC ID. Therefore, we kindly request that you please dismiss this application.

Thank you in advance for your attention to this matter.

Sincerely,

B S ELECTRONICS (PTY) LTD
VAT no. 4190186894
Co. Reg. No. 29 1719007
