Hi Tom,

The review is complete. Please reply to the 2 items below. You should also have receive an informational notice for the related Part 15 application.

Q1. Please provide information (in revised theory of operation or separately) describing the channels and bandwidths that will be used, and how they will be configured and controlled, and modified for compliance with the band plan described in 90.1213 and how they will comply with the requirements of 90.203(e), (f), and (g). For this purpose, configuration software is considered to be an "external control" as described in the rules.

Q2. The test procedures must be specified in the test report. Please provide a revised report with the measurement procedures included. Refer to the following link for additional detail: <http://www.fcc.gov/oet/ea/eameasurements.html>

Best regards,

Tim Dwyer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
