Attention: Brian Dettling

During the review of this device, the following items need to be clarified. Please be aware that there may be additional questions based upon the responses to these items.

1. The request for confidentiality is not valid as it does not reference the appropriate FCC rules (0.457 and 0.459). Please submit a corrected confidentiality request.
2. FYI – the output power on the application form should be in Watts rather than in milliWatts.

Best Regards,
