

American Telecommunications Certification Body Inc.
6731 Whittier Ave, McLean, VA 22101

RE: P9R-10083132

Attention: Brian Dettling

During the review of this device, the following items need to be clarified. Please be aware that there may be additional questions based upon the responses to these items.

1. The test report (test data and summary) still indicates the output power to be 0.0447 mW rather than 0.0447 W as shown in the operational description. Please clarify whether the power is in mW or in W.

Best Regards,

Michael Mobley

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to the correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
