Re: Compliance Statement in Vehicle Manual

The model PMV-108M is installed in vehicles as original equipment. We do not supply a manual with the unit but we do notify the vehicle manufacturer of the required statements that must be placed in their users manual, meeting the requirements of the Federal Communications Commission CFR 47, Part 15, Paragraph 15.19(a)(3) and Industry Canada RSS-210, Paragraph 5.11:

A representative copy of this notification letter is attached.

Sincerely,

Kazunori Yamaguchi
TPMS DEPT.
Pacific Industrial Co., Ltd.

HONDA MOTOR CO.,LTD.

4630 Shimotakakenezawa, Haga-machi, Haga-gun, Tochigi , 321-3393 Japan

The model PMV-108M is installed in your vehicles as original equipment. We do not supply a manual with this unit but we request that the following required statements be placed in the vehicles manual to meet the requirements of the Federal Communications Commission CFR 47, Part 15, and Industry Canada RSS-210.

COMPLIANCE STATEMENT

- "This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and, 2) This device must accept any interference received including interference that may cause undesired operation."

MODIFICATION CAUTION STATEMENT:

"CAUTION TO USER: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."

RF EXPOSURE CAUTION STATEMENT (for a mobile device that must maintain a separation distance of at least 20 cm):

"RF Radiation Hazard Warning: To ensure compliance with FCC RF Exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 20 cm (8 in.) from all persons."

Sincerely

Kazunori Yamaguchi

ADDITIONAL INFORMATION TO THE APPLICANT:

If your device is a transmitter with a detachable antenna, you also need to notify the automobile manufacturer to include the following statements per IC RSS-210, Paragraph 5.5 and the second part of RSS-210, Paragraph 5.11:

"This device has been designed to operate with an antenna having a maximum gain of ___dB. Antenna having a higher gain is strictly prohibited per regulations of Industry Canada. The required antenna impedance is ___ ohms."

" To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than that required for successful communication."
