## Theory of Operation

November 7, 2007

Federal Communications Commission

RE: Certification Application  
FCC ID: PB24220CF10

To Whom It May Concern:

The handheld device (PSC/Datalogic Falcon 4220) is a PDA form factor, battery operated handheld computer used for barcode scanning and data collection applications. The Summit CF10 WLAN radio which is contained in the 4220's internal Compact Flash slot provides connectivity to a mainframe host for transfer of data entered via the 4220's keyboard, scanner and touch screen.

Sincerely,

Charles D. Bolvin
