RE: Correspondence Reference Number 25051

FCCID: PB2WT2270

Date: April 15, 2003

To: Stan Style

Acknowledging your communication on April 11, 2003, Reference Number 25051.

1. This particular antenna was not approved under the original Cisco filing. We tested it under the pending application.
2. This is obviously in error. I don't know how the reference to 960 Mhz to 15 Mhz appeared in form 731. It should be 2412.0 Mhz to 2462.0 Mhz at 100mW conducted as stated in the SAR report.
3. I have uploaded the Cisco filing documents as requested.
4. A photo of the antenna alone and installed in the terminal has been uploaded.
5. A full manual with RF Safety information has been uploaded.

If there are any questions about this request, please let me know.

Thank you for your attention.

Charles D. Bolvin
