

Imation Corp.

1 Imation Way, Oakdale, MN 55128 USA

January 03,2014

Equipment Authorization Division
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Class II Permissive change to model A26

To whom it may concern:

Imation Corp., has made a change to A26, uses a PCB bridge to connect the power board and the main board instead of the cables. This PCB only uses for connection without any electronic components. We do not make any change to other part.
