Attention: Application Examiner / Reviewing Engineer
Re: Confirmation Letter for FM Transmitter
Applicant: Sarotech Co., Ltd., FCC ID: PBCDVP-260

To whom it may concern,

We, Onetech Corp., would like to answer following questions for requesting by the TCB, Compliance Certification Services Inc on behalf of our customer, Sarotech Co., Ltd.

1. How does this device operate?
→ It shall be operated in home or car.
2. Provide information on the device and its antenna
→ It is a multimedia player that has a function for transmitting of FM broadcasting frequency range and PC peripheral for USB port. The TX antenna used is internal wire antenna.
3. How is it installed?
→ The device is installed with the radio mounted in a manner that avoids blocking the view of the road by the driver or will be installed near FM Broadcasting Receiver and/or TV in home.
4. What test procedure was used?
→ ANSI C 63.4.
5. If tested in a car, how was it configured/tested?
→ It was not tested in a car, but it was tested in OATS and chamber, because the device does not have external transmitting antenna input port.
6. Was the tuning range properly verified?
→ Yes, the low channel is 88.1MHz, and the highest channel is 88.9MHz. Please refer to the statement and test data on page 13 and page 14 of the test report.
7. Was the bandwidth properly tested with maximum audio input?
→ This device does not have an audio input port, so the movie file that was stored in this device was played and than transmitted audio signal with the maximum output volume.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Y.K. Kwon / Director
Onetech Corp.
