Manufacturers declaration of IMEI securityApplicant:

Ericsson Mobile Communications AB  
Nya Vattentorget  
221 83 LUND  
Sweden

Product details:

Ericsson Type 1130102-BV triple band GSM 900, 1800 and 1900 communication module, all software and hardware versions.

Declaration:

We declare that the steps listed in paragraphs 1 to 3 below to protect the security of the IMEI has been taken.

## 1. Programming security

Encryption technique has been adopted to prevent unauthorized reprogramming of the IMEI. The IMEI are stored in non-consecutive memory addresses.

## 2. Mechanical security

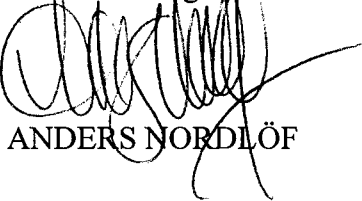

The apparatus has been constructed such that unauthorized persons cannot economically replace the components in which the IMEI is stored.

## 3. Availability of software

Knowledge of the software and data locations are restricted to the manufacturers personnel on a need to know basis.

Signed for and on behalf of the applicant:

Authorized sign:
