

# Application **PBY 8505001**

## Additional information for the FCC approval of Ericsson headset **PBY8505001**

### ref: channel separation in data mode (1)

The entire band is shown in the plot titled 'modulation spectrum' on page 22 of the FCC15.247 testreport "Testreport PBY8404003-BV". A small part of the band with 3 MHz span is plotted below to show the hopping channel carrier frequency separation.

Comment A: equal freq use peak inquiry hs  
 Date: 26.JAN.2001 14:43:49

This is evidence the device has hopping channel carrier frequencies separated by 20 dB bandwidth of the hopping channel.
