SAFETY PRECAUTIONS:
BATTERY WARNING:
OPERATING INSTRUCTIONS
Each robot requires 3 "AAA" 1.5V batteries (not included). Each remote control requires 1 9V battery (not included). When changing batteries, adult supervision is required. Use alkaline batteries for best performance.
1. Carefully remove items from the package.
2. Locate the battery compartment on the back of each robot, as well as the remote.
3. On robots, loosen the screws and remove battery doors. Slide doors open on RC units.
4. Insert "AAA" batteries inside robots while observing the correct polarity in each compartment's base diagrams. Insert one 9V battery into each remote control.
5. Replace the battery doors and tighten screws.
6. Switch robot and remote control power switches to the "ON" position. The power switch is located on the side of the robots.
NOTE: Before use, adjust the robot to make sure both feet have good contact with the ground. Use on a hard, flat surface for best results.
Each remote requires 1 9V battery (not included)

HOW TO PLAY
WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
