SAFETY PRECAUTIONS:

- Do not use for projectile launch children or animals. The detachable head can pose a choking hazard.
- Adult supervision is recommended at all times.
- Do not use on wet and/or slippery surfaces. These surfaces may reduce the product's ability to grip.
- Never use the product near sources of heat, under direct sunlight or outside overnight as this is harmful to internal components.

BATTERY WARNINGS:

- Do not use old and used batteries.
- Do not use alkaline, standard carbon-zinc, or rechargeable (nickel-cadmium) batteries.
- Insert batteries using the correct polarity. Do not connect to the wrong terminal.
- Remove batteries when not in use. Replace or dispose of exhausted batteries according to local, state and federal laws. Do not attempt to recharge a 9V battery as this may cause fire or explosion.
- Only use the manufacturer's recommended batteries. Recharge only under supervision.
- Always use, replace, and remove of alkaline batteries under adult supervision.

KEEP THIS PACKAGE FOR REFERENCE AS IT CONTAINS IMPORTANT INFORMATION.

OPERATING INSTRUCTIONS:

Each robot requires 2 "AAA" 1.5V batteries (not included). Each remote control requires 1 9V battery (not included). When changing batteries, adult supervision is required. Use alkaline batteries for best performance.

1. Carefully remove items from the package.
2. Locate the battery compartment on the back of each robot, as well as each remote.
3. On robots, loosen the screws and remove battery doors. Slide doors open on RC units.
4. Insert "AAA" batteries inside robots while observing the correct polarity in each compartment (see diagram). Insert one 9V battery into each remote control.
5. Replace the battery doors and tighten screws.
6. Switch robot and remote control power switches to the "ON" position. The power switch is located on the side of the robot(s).

NOTE: Before use, adjust the robots to make sure both feet have good contact with the ground. Use one hand to hold the robot and support for best results.

LEFT JOYSTICK **RIGHT JOYSTICK**

OPERATING CONTROLS:

- ↑ Push left joystick to spin robot.
- ↓ Push left joystick to knock robot.
- Push right joystick to throw hook.
- ← Push right joystick to throw jab.
- ↑ Push the left lever down and the right lever up to spin clockwise.
- ↓ Push the left lever down and the right lever up to spin counter-clockwise.

HOW TO PLAY:

There are sensors located beneath each robot's chest plate. The object of the game is to knock the opposing robot's head off by making contact with the chest plate (striking the robot's head). When the head ejects, the power will be cut off. To continue the contest, the head has to be attached to the body. To replace the head place it face forward onto the neck and gently press down until it clicks into place.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
