

**Mealstream EC501 (Series 5) CTM3 240V, 60Hz
FCC Class II permissible Change**

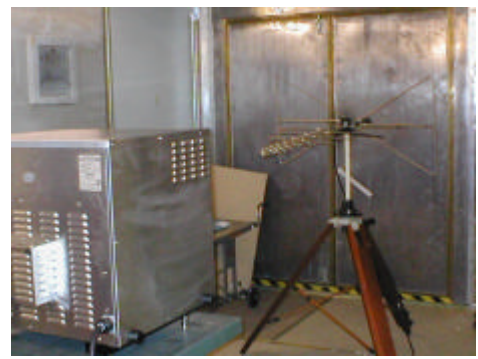

EMC Test Set-up: Conducted Emissions

EUT

**Mealstream EC501 (Series 5) CTM3 240V, 60Hz
FCC Class II permissible Change**

EMC Test Set-up: Radiated Emissions - Pre-scan @ approx. 1 metre

EUT

Note: This radiated emission setup shows the 208V, 60Hz variant, the test results of which also characterise the 240V, 60Hz variant due to the use of identical components and circuitry likely to act as radiating sources.

**Mealstream EC501 (Series 5) CTM3 240V, 60Hz
FCC Class II permissible Change**

EMC Test Set-up: Radiated Emissions Open Area Test Site 10m and 3m

@ 10 metre

@ 3 metre

Note: This radiated emission setup shows the 208V, 60Hz variant, the test results of which also characterise the 240V, 60Hz variant due to the use of identical components and circuitry likely to act as radiating sources.
