

**DECLARATION****FCC ID: PCVCTM5206015A**

Merrychef intend to introduce a new model variant to one of its Combination Microwave Ovens originally certified by the A.T.C.B. under FCC ID: PCVCTM3206015A

The new model is identical to the PCVCTM3206015A except that it uses a lower wattage "resistive" heating element of 2500 Watts in place of a 3000 Watts element.

Merrychef believes the change to the element power rating should not impair the EMC performance from that recorded in the test report for the PCVCTM3206015A variant.

Merrychef will therefore re-submit the original test report in support of the application for Grant Authorization for the new variant with FCC ID: PCVCTM5206015A.

For and on behalf of Merrychef Limited
