Subject: Model 13110NGW Wireless LAN mini-PCIe Card
FCC ID: PD913110NG
IC:1000M-13110NG

Gentlemen:

Please be advised that the Model 13110NGW 802.11ad Wireless LAN mini-PCIe card is being submitted for an FCC Class 2 permissive change and ISSED class IV permissive change. The request is to add the host conditions for the HTC VIVE virtual reality(VR) headset platform, model 2Q4L100 described herein to demonstrate rf exposure evaluation compliance.

An FCC KDB Inquiry was submitted to the FCC prior to this application request. A copy is attached in this filing for your reference use only. You will note in their response dated April 12, 2018 permission was granted to upload the application to the TCB with the condition of PAG review prior to granting.

Change #1: This change establishes portable category rf exposure compliance conditions for the host platform listed below.
HTC model 2Q4L100 VR Headset
Antenna: Gigabit antenna model 10101RRFW (RFEM 3)

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Hackett".
