Subject: Identical DFS function of 533AN\_MMW and 533ANXMMW  
FCC ID: PD9533ANXM

Gentlemen:

Please accept this letter as an attestation that the DFS report submitted with this application which names model 533AN\_MMW as the device tested also covers model 533ANXMMW.

Both devices are client-only devices without radar detection and are controlled by identical Radio Hardware and Firmware for channels that operate in the DFS spectrum.

The only difference between the above mentioned models is an additional chipset to enable Part 27 WiMAX operation the frequency range of 2486-2690MHz, which is not subject to DFS testing.

If you have any further questions or need additional information, please feel free to give me a call at (503) 712-8076.

Sincerely,

Marissa Faustino  
Compliance Engineer
