September 21, 2010

To whom it may concern:

The enclosed documents constitute a formal submittal and application for Equipment Authorization for modular approval for a composite device pursuant to the following rules:

Subpart B of Part 15 of FCC Rules (CFR 47) – JBP  
Subpart C of Part 15 of FCC Rules (CFR 47) – 15.247 (DTS)  
Part 27 of FCC Rules (CFR 47) – TNB

The device is a module meeting all of the requirements for modular approval. Two versions of the product are being submitted under two different IDs. This application, under FCC ID PD9612BNXHU, is for a **limited** single modular approval allowing installation by the end user into devices that have a BIOS lock to ensure that the module is only used in approved systems. Descriptions of the BIOS lock associated with this approval for two different integrators have uploaded as part of the operational description and are to be held confidential. Permanent or temporary confidentiality has been requested for additional documents – refer to the confidentiality request letter for details.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

A handwritten signature in blue ink that reads "Mark Briggs".

Mark Briggs  
Staff Engineer
