RE: PD962205ANH

I am requesting permission to allow American Certification Body, Inc. (ACB) to replace the SAR report in the above mentioned filing. The revision of the SAR report in the filing had some of the channels in n40 which are not used by Intel Corporation. I forgot to remove these channels from the report. The version of the report which has been filed is 'Revision C', and I am requesting to have it replaced with 'Revision E.'

Thank you,

Jay Moulton
