Subject: Model 62205BGHMW Wireless Lan PCIe Card  
FCC ID's: PD962205BGH and IC: 1000M-62205BGH

Gentlemen:

Please be advised that the Model 62205BGHMW Wireless Lan PCIe card is manufactured for the global market but when marketed in North America under FCC ID's PD962205BGH and IC: 1000M-62205BGH the EEPROM will be programmed at the factory to only operate and actively scan on these specific channels:

Channels 1-11, 2412-2462MHz 802.11b mode  
Channels 1-11, 2412-2462MHz 802.11g mode

The following channels will be programmed at the factory to passively scan and will only listen and cannot send a probe request to initiate communication on these specific channels. Ad-hoc mode is always disabled on these passive channels.

Channels 12 &13, 2467 & 2472MHz 802.11b mode  
Channels 12 &13, 2467 & 2472MHz 802.11g mode

This information when programmed into the EEPROM will not be accessible and can not be changed by the end user.

If you have any questions please do not hesitate to contact us at 803-216-2344.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Hackett", written over a horizontal line.
