Hi Doug,

I was informed by Dell this morning that the temporary confidentiality needs to be withdrawn on this latest approval as they have started marketing it online today.

*Thanks,*

**Attached is the Grant of Equipment Authorization for this device. Please note that according to Section 2.962(g)(2) of the FCC Rules & Regulations (47 CFR), the TCB is mandated to perform Surveillance testing on 5% of the total certifications performed. According to Section 2.962(g)(2) the grantee is expected to have ample production samples available in the event this device is requested as a sample. Explanations such as item no longer manufactured, or not marketed in the United States does not absolve the grantee from providing a sample whether requested by the TCB or**

the FCC. Failure to provide a post-grant production sample(s) may result in FCC action that will affect the use of this Grantee Code for future equipment authorization. For complete details of TCB surveillance requirements, please see <http://fjallfoss.fcc.gov/oetcf/kdb/forms/FTSSearchResultPage.cfm?id=20540&switch=P>.

Attached is the Technical Acceptance Certificate (TAC) for this application. Note that you must wait until the certification appears on the IC REL database before you may distribute, lease, sell, or offer for sale the device. You may monitor IC's REL by using the following web site address:
