OEM Communication:

Transition Update to FCC New UNII Rules

The devices listed below have been originally approved under FCC rule part 15.247. Based on the implementation of the rule changes from docket 13-49 these devices can no longer be manufactured, sold, imported or placed into operation after June 2, 2016. After this date these devices must comply with the new rule changes provided in docket 13-49.

The Memorandum of Opinion and Order issued on March 6 allows for these devices to be updated from 15.247 to compliance with new rules 15.407(b)(4)(ii) so long as there are no hardware changes or changes to output power. Devices approved under 15.407(b)(4)(ii) may be sold until June 2, 2020.

The following devices approved under 15.407(b)(4)(ii) may be marketed, sold and imported until June 2, 2020. After this date these devices must comply with the emission limits of 15.407.
