RE: FCC ID: PD9AP2011BWLAN

To whom it may concern,

We hereby attest that the Intel Wireless LAN card, FCC ID: PD9AP2011BWLAN continues to be electrically identical to the originally certified equipment. The original test results are applicable and representative of the device. The only change is the addition of the new dipole antenna (Centurion Wireless Technologies Inc. part #: CAF28915, with an associated 11 inch piece of RG316 coax). A radiated emissions test report is supplied which documents compliance for the new antenna.

Sincerely,

A handwritten signature in blue ink that reads "Yogendra A. Shah".
