Ref: FCC Class II Permissive change for FCC ID: PD9BE200D2

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9BE200D2, originally granted for DSS, DTS, UNII, UNII-4 on 08/23/2023, for 6CD on 09/14/2023.

Change #1: This change establishes portable category SAR conditions for the Dell model P166G convertible PC with Pifa antennas part number F-0G-FH-6158-001-00 (DC33002R23L) and F-0G-FH-6158-001-00 (DC33002R23L).

Note(s):

- Our intention is to apply the PAG re-use process for granting approval due to the Dynamic SAR feature using G/Hall sensors.
- The WLAN TAS feature is enabled for the 2.5Ghz and 5GHz bands. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

Sincerely,

By:

Benjamin LAVENANT
