Ref: FCC Class II Permissive change for FCC ID: PD9BE200NG

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9BE200NG, originally granted for DSS, DTS, UNII on 08/23/2023 , for 6CD on 09/14/2023.

Change #1: This change establishes portable category SAR conditions for the HP model HSN-I61C convertible PC with PIFA antennas part number 6036B0345201 (81EAB815.G02), 6036B0346801(00-2602754550), 6036B0344801 (81EAB815.G01), 6036B0346501 (00-2602754650).

Our intention is to apply the PAG re-use process for granting approval due to the Dynamic SAR feature using G/Hall sensors.

The WLAN TAS feature is enabled for 2.4GHz and 5GHz bands. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

Sincerely,

By:
