American Telecommunications Certification Body, Inc.  
6731 Whittier Avenue Suite C110  
McLean, VA 22101

To Whom It May Concern:

Please be advised that the frequency range listed in the Marketing Brochure 2400 – 2497MHz is correct due to this device FCC ID: PD9WM3A2100 model number WM3A2100 being marketed globally. This device FCC ID: PD9WM3A2100 model number WM3A2100 will be limited to channels 1 – 11, frequencies 2400 – 2483.5MHz in the U.S.. This will be done by the ability to flash the EEPROM for the U.S. SKU making this device only operate on these channels and frequency range. The end user will not have the ability to change the values in the EEPROM.

Thank you for your attention to this matter.

If you have any further questions or need additional information, please feel free to give me a call at 805-376-9300.

Sincerely,
