Statement of Conformity for the Client in Non-Associated mode

This device client software and associated drivers will not initiate any transmission on DFS frequencies without initiation by a master. This includes restriction on transmissions for beacons and support for ad-hoc peer-to-peer modes.

For the 5650-5600 MHz band, transmission within the TDWR (Time Domain Weather Radar) band is restricted.

The Wireless Router function cannot operate in the 5 GHz WLAN band
