CHANGES IN DESIGN – PERMISSIVE CHANGE CLASS 2

Pursuant to Sections 2.1043 of the Commission's Rules, the Applicant hereby requests approval for changes in design planned for product FCC ID: PDNRM-974. Changed components are described in Exhibit10 Part list.

Internal conclusion was to retest different equipment classes as follows:

- §2.1093 3 channel worst case configurations on GSM850/1900/WCDMA850/LTE2500

We have seen with other products that this same change has not affected to Radiated Spurious Emissions and that's the reason why RSE is not tested with this change.
