

Question : Please remeasure the fundamental frequency at 3m according to CFT 47 part 15.209 and resubmit the data

Answer: The fundamental frequency measurement at 3m is as follows:

| Frequency MHz | dB μ V | Corr. Factor dB | Corr. Amp. dB μ V/m | Limit dB μ V/m | Margin dB |
|------------------|------------|--------------------|-------------------------------|-----------------------|--------------|
| 792.3 | 21.6 | 20.8 | 42.4 | 54 | +11.6 |
