RE: FCC ID: PEJ-93824-XETA4HP  
IC ID: 11169A-Xeta4HP

This letter serves to confirm that XetaWave only sells radios through distribution partners who provide professional installation services as a part of their integrated solution to end users.

These professional installers are responsible for license requirement, applicable regulations and configuring the frequency control settings for licensed bands.

Further, the user manual states: "These radio systems shall be installed by a RF/radio professional familiar with the applicable rules."

Thank you,

Craig Held  
Executive VP  
XetaWave, LLC
