October 11, 2013

To whom it may concern:

We, (Xetawave, LLC) hereby request a Class II permissive change be granted for FCC ID: PEJ-93824283-XETA4 to add 12.5 KHz channel bandwidths.

We performed testing and confirmed that the RF section of the transmitter, frequency range and power levels are electrically identical to the module that was previously tested and granted approved under FCC ID: PEJ-93824283-XETA4.

Thank you for your attention to this matter.

Sincerely,

Craig Held 10.11.13

Craig Held
