

**BOSCH**

Robert Bosch LLC  
15000 Haggerty Rd.  
Plymouth, MI 48170  
[www.bosch.us](http://www.bosch.us)

The device under test is manufactured by the grantee (**Robert Bosch Corporation**), and sold as an OEM product. Per 47 CFR 2.909, 2.927, 2.931, 2.1033, 15.15(b) etc..., the grantee must ensure the end-user has all applicable / appropriate operating instructions. When end-user instructions are required, as in the case of this product, the grantee must notify the OEM to notify the end-user.

**Robert Bosch Corporation** will supply this document to the reseller/distributor dictating what must be included in the end user's manual for the commercial product.

#### INFORMATION TO BE INCLUDED IN THE END USER'S MANUAL

**The following information (in blue) must be included in the end product user's manual to ensure continued FCC and Industry Canada regulatory compliance. The ID number(s) must be included in the manual if the device label is not readily accessible to the end user. The compliance paragraphs below must be included in the user's manual.**

\*\*\*\*\*

FCC ID: **PFJG2THN4**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**WARNING:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This product has been tested and complies with the specifications for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which is found by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment or devices
- Connect the equipment to an outlet other than the receiver's
- Consult a dealer or an experienced radio/TV technician for assistance
