Re: Vieworks, System Control Unit, Model: FXRS-03A – Antenna requirement

The company *Vieworks Co., Ltd* as being manufacturer of model *FXRS-03A* hereby states that the model uses an antenna as SMA-Male type.

→ SMA-Male

The antenna cannot be detached since it is fixed well on the bracket from inside of device as above picture. If the antenna is removed, the bracket also needs to be replaced. In addition, the device has some QC label to check whether it is opened or not by user. So Vieworks can see the trace on QC Label.

As a result, this device complies with antenna requirements according to FCC 15.203.

Best regards,
