Greg Kiemel
Director of Engineering
Northwest EMC, Inc.
22975 NW Evergreen Pkwy., #400
Hillsboro, Oregon 97124

Dear Greg,

Included with this cover letter are the application files for our submission of the Belos-T family of Implantable Cardiac Defibrillator (ICD) devices. The submission covers three (3) devices built upon our 4085 substrate; The Belos DR-T, the Belos VR-T and the Cardiac Airbag-T. All three devices use our proprietary Home Monitoring technology.

This submission is relevant to a bipolar-FSK transmitter used in the Belos-T series of ICD's. We are seeking a type certification for this device. This type license is authorized under FCC Part 95 MICS. There is no other lab data other than that obtained from you (NWEMC).

We have been assigned the FCC Registration Number (FRN) 0008602195. We will want to use the FCC ID# PG6BELOS-T for these products.

If you have any questions, please call me at (503) 387-2640, or fax (503) 387-2611. Thank you for your assistance.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. A. Horton'.

Jim Horton
Senior Program Manager
Biotronik, Inc.
